INDEPENDENT AUDITORS' REPORT

Office of the Secretary
Department of Housing and Community Development
Lanham, Maryland

We have audited the accompanying combined financial statements of the Community Development Administration Revenue Obligation Funds (the Funds) of the Department of Housing and Community Development of the State of Maryland, which comprise the statement of net position as of June 30, 2018, and the related statements of revenue, expenses and changes in net position, and cash flows, for the year then ended, and the related notes to the combined financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these combined financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of combined financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these combined financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the combined financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

A member of Nexia International

Opinion

In our opinion, the combined financial statements referred to above present fairly, in all material respects, the financial position of the Funds as of June 30, 2018, and the changes in its net position and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Other Information

As discussed in Note 1, the combined financial statements present only the Funds and do not purport to, and do not, present fairly the financial position of the Department of Housing and Community Development of the State of Maryland as of June 30, 2018, and the changes in its net position and its cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Required Supplementary Information

Management has omitted the Management's Discussion and Analysis that accounting principles generally accepted in the United States of America requires to be presented to supplement the basic financial statements. Such missing information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming an opinion on the combined financial statements as a whole. The accompanying supplemental information on pages 34 through 35 is presented for purposes of additional analysis and is not a required part of the combined financial statements. Such information is the responsibility of management. The information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion, or provide any assurance on it.

Report on Summarized Comparative Information

We have previously audited the Funds' 2017 combined financial statements, and we expressed an unmodified audit opinion on those combined financial statements in our report dated September 29, 2017. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2017 is consistent in all material respects, with the audited combined financial statements from which it has been derived.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards,* we have also issued our report dated September 28, 2018, on our consideration of the Funds' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Fund's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Funds' internal control over financial reporting and compliance.

NOTE 1 AUTHORIZING LEGISLATION AND PROGRAM DESCRIPTION

The Community Development Administration (CDA) was created in 1970 by Sections 266 DD-1 to 266 DD-8 of Article 41 (now in Sections 4-101 through 4-255 of the Housing and Community Development Article) of the Annotated Code of Maryland to meet the shortage of adequate, safe and sanitary housing in the State of Maryland, particularly for persons or families of limited income. CDA is in the Division of Development Finance in the Department of Housing and Community Development (DHCD) of the State of Maryland.

The accompanying combined financial statements only include CDA's Revenue Obligation Funds (the Funds). CDA's other programs are not included. However, CDA has also separately issued combined financial statements for the Infrastructure Program Funds and financial statements for the Single-Family Housing Revenue Bonds and Multi-Family Mortgage Revenue Bonds indentures. The Revenue Obligation Funds, Infrastructure Program Funds, Single-Family Housing Revenue Bonds, and Multi-Family Mortgage Revenue Bonds are enterprise funds of the State of Maryland and are included in the State of Maryland's Comprehensive Annual Financial Report.

Within each Fund in the Revenue Obligation Funds are separate accounts maintained for each obligation in accordance with the respective indentures. The following summarizes each of the Funds.

Fund	Purpose
Housing Revenue Bonds	To provide funds to finance or refinance loans for various types of housing. As of June 30, 2018, Housing Revenue Bonds have primarily financed multi-family projects.
Residential Revenue Bonds	To originate or purchase single-family mortgage loans.
General Bond Reserve Fund	To provide funds for payment of principal and interest on bonds and notes in the Revenue Obligation Funds to the extent revenues and assets specifically pledged are not sufficient. This Fund also provides for the payment of operating expenses of CDA.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The Revenue Obligation Funds are accounted for as enterprise funds. Accordingly, the accompanying combined financial statements have been prepared using the accrual method of accounting and on the basis of accounting principles generally accepted in the United States of America (GAAP).

Basis of Accounting and Measurement Focus

The basis of accounting for the Funds is determined by measurement focus. The flow of economic resources measurement focus and the accrual basis of accounting are used to account for the Funds. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. All assets and liabilities associated with the operation of the Funds are included on the Combined Statements of Net Position. The Funds are required to follow all statements of the Governmental Accounting Standards Board (GASB).

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Generally Accepted Accounting Principles

CDA reports its financial activities by applying Standards of Governmental Accounting and Financial Reporting as promulgated by GASB. Consequently, CDA applies all applicable GASB pronouncements.

In accordance with accounting guidance issued by GASB, net position should be reported as restricted when constraints placed on net position use is either: externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or is imposed by law through constitutional provisions or enabling legislation. Accordingly, the net position of the Funds is restricted as to its use as the net position is pledged to bondholders.

Since CDA is an enterprise fund included in the State of Maryland's Comprehensive Annual Financial Report, a separate Management's Discussion and Analysis is not included in these combined financial statements. CDA prepares a Management's Discussion and Analysis for the General Accounting Division of the State of Maryland that is not part of these combined financial statements.

Cash and Cash Equivalents on Deposit

Cash equivalents may include money market funds, repurchase agreements, investment agreements and any other investments, primarily obligations of the U.S. Treasury and U.S. Government Agencies, which have maturities of 90 or less days at the time of purchase. As of June 30, 2018, the Funds' cash equivalents are primarily invested in a money market mutual fund which is more fully described in Note 3.

Investments

Investments are principally governmental debt securities or investment agreements collateralized by governmental debt securities. Debt securities are stated at fair value, based on quoted market prices. Investments are classified as current or long-term based on the maturity date or call date. Callable investments are classified as current, if exercise of the call within the next fiscal year is probable. Investments are more fully described in Note 3.

Mortgage-Backed Securities

These guaranteed securities are issued in connection with mortgage loans on multi-family projects and single-family homes. They are stated at fair value, based on quoted market prices. Mortgage-backed securities are more fully described in Note 3.

Mortgage Loans

Mortgage loans are carried at their unpaid principal balances, net of allowance for loan losses. Loan fees are recognized as revenue in the period received. Any single family mortgage loan in foreclosure with a pending insurance claim is recorded as claims receivables. See Notes 4 and 15 for additional information on mortgage loans and mortgage insurance, respectively.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Accrued Interest and Other Receivables

Accrued interest and other receivables include interest on loans and investments. On insured multi-family mortgage loans that are in default, CDA continues to accrue interest until receipt of a mortgage insurance claim. On insured single-family loans, interest ceases to accrue after foreclosure. See Note 5 for additional information.

Claims Receivable on Foreclosed and Other Loans

Claims receivable on foreclosed and other loans include insured single-family loans that are in foreclosure or other single-family loans with pending insurance claims, recorded net of allowance. These loans are primarily insured by U.S. Government Agencies or private mortgage insurers. Foreclosed loans insured by private mortgage insurers are held in this account until the insurer has made a final determination as to claim payment or transfer of the property to CDA.

Real Estate Owned

Real estate owned represents real estate acquired through foreclosure or deeds-in-lieu and is stated at the lower of cost or fair value less estimated costs to sell. Expenses incurred related to real estate owned are reported on the Combined Statement of Revenue, Expenses and Changes in Net Position.

Allowance for Loan Losses

Substantially all single-family mortgage loans of the Funds are insured or guaranteed by agencies of the U.S. Government, the Maryland Housing Fund (MHF), or private mortgage insurers. Most primary coverage levels range from 25% to 100% of the loan. CDA has established an allowance for loan losses on the uninsured portions of multi-family loans and on single family loans with private mortgage insurance. CDA has also established an allowance for loan losses on single family loans with private mortgage insurance that are in foreclosure. Management believes the allowance established is adequate based on prior experience and evaluations from DHCD's asset management group as well as a current assessment of probability and risk of loss due to default or deteriorating economic conditions. See Note 4 for additional information on allowance for loan losses.

Bond Issuance Costs

Bond issuance costs are recognized and expensed in the period incurred.

Due from (to) Other Funds

Due from (to) other Funds records the pending transfers of cash between Funds which is primarily a result of receipts due to one Fund, but received by another. As of June 30, 2018, there were no pending cash transfers due between Funds.

Bonds Payable

Bonds payable are carried at their unpaid principal balances, net of unamortized original issue discounts or premiums. However, in an economic refunding, any costs incurred from the refunding of bonds would be reported as deferred outflows or inflows of resources on the Combined Statement of Net Position. See Notes 6, 7, 8, 9, 10, and 12 for additional information on bonds.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Due to Multi-Family Projects

On some multi-family mortgage loans CDA records the total loan amount when the loan closes and collects interest from the multi-family projects on the full loan amount from the date of closing. Due to Multi-Family Projects represents the undrawn loan amount which is held by CDA as an escrow until the funds are needed by the projects.

Deposits by Borrowers

This account consists of escrows and reserves held by CDA on behalf of multi-family housing developments. CDA invests these deposits and, for reserves, allows earnings to accrue to the benefit of the mortgagor. Escrows represent amounts held by CDA for mortgage insurance and hazard insurance premiums and real estate taxes, all of which are generally paid annually and which are classified as a current liability. Based on the current year's reserve disbursements, CDA has estimated the current reserve liability. The balance of the reserves is classified as long term. CDA has set up other escrows for construction interest which are classified based on loan interest due as to whether it is a current or long-term liability. See Note 12 for further information on changes in long-term obligations.

Rebate Liability on Investments

Regulations governing the issuance of tax-exempt debt place limitations on permitted investment yield on borrowed funds. Based on these regulations, CDA is required to periodically rebate excess earnings from investments to the United States Treasury. In addition, the liability also includes an estimate of the rebate obligation related to unrealized gains as a result of recording investments at fair value. Rebate liability is more fully described in Note 11.

Interest Rate Exchange Agreements (Swaps)

Interest rate exchange agreements (swaps) are derivative instruments which are entered into as cash flow hedges to reduce exposure to identified financial risks associated with assets, liabilities or expected transactions or to lower the costs of borrowings and are considered to be hedging derivative instruments. Swaps are reported at fair value in the Combined Statement of Net Position and are tested quarterly for hedge effectiveness. Effectiveness is established if the changes in cash flows of the swaps substantially offset the changes in cash flows of the hedgeable items. The changes in fair values of the swaps that are determined to be effective hedges will be recognized as deferred inflows or outflows of resources in the Combined Statement of Net Position. The changes in fair value of the swaps that are determined not to be effective hedges will be reported in the Combined Statement of Revenue, Expenses and Changes in Net Position. CDA's swaps are more fully described in Note 9.

Mortgage Yield Limitations

All mortgage loans are subject to yield limitations under the Internal Revenue Service Code (the Code) in order for the associated bonds to maintain their tax-exempt status. At the time of bond issuance and over the term of the bonds, CDA determines and maintains compliance with the permitted mortgage yield on the loans. In certain bond refunding transactions, CDA transfers loans from prior series of bonds to the refunding series. CDA monitors the yield on these transferred loans to ensure that the composite yield over the term of the bonds is within the yield limitations of the Code. If at any time the composite yields on the transferred loans are out of compliance with the Code, CDA has certain remedies available to bring the yield into compliance. As of June 30, 2018, all mortgage loan yields are in compliance with the Code.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Interest on Mortgage Loans and Mortgage-Backed Securities

Interest on mortgage loans and mortgage-backed securities is calculated using the effective interest method.

Fee Income

CDA receives multi-family financing fees at loan origination. These fees are recognized as revenue in the period received as fee income. Tax credit fees and administrative fees are recorded as earned.

Administrative Support

In addition to expenses incurred directly by the Funds, CDA receives certain support services from other divisions of DHCD. Support services and the operating expenses of CDA have been allocated to CDA's General Bond Reserve Fund. The General Bond Reserve Fund records these expenses as invoiced by DHCD for the fiscal year. For the year ended June 30, 2018, the total costs for salaries and related costs and for general and administrative costs charged to the General Bond Reserve Fund was $24,539.

The employees of CDA are covered by the Maryland State Retirement and Pension System. See Note 16 for additional information.

Revenue and Expenses

CDA distinguishes operating revenue and expenses from non-operating items in accordance with accounting guidance issued by GASB. Operating revenue and expenses are identified as those activities that are directly related to financing affordable housing in the State of Maryland. The Funds' activities are considered to be operating except for increases and decreases in the fair value of mortgage-backed securities that are held within the portfolio. Mortgage-backed securities that are part of the TBA program are classified as operating which is more fully described in Note 3.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue, expenses, gains, and losses during the reporting periods. Actual results could differ from these estimates.

Reclassifications

Certain reclassifications have been made in the 2017 statements to conform to the classifications used in 2018. These relate to the reclassification of certain operating revenues and have no effect on net position or the change in net position.

Combined Totals

The totals of similar accounts of the various Funds in the accompanying combined financial statements are presented for information purposes only. The totals represent an aggregation of the Funds and do not represent consolidated financial information, as interfund balances are not eliminated.

(in thousands)

NOTE 3 CASH, CASH EQUIVALENTS, INVESTMENTS AND MORTGAGE-BACKED SECURITIES

Bond proceeds and revenues from mortgages, mortgage-backed securities, and investments are invested in authorized investments as defined in the respective indentures and in CDA's Investment Policy until required for purchasing mortgage-backed securities or originating mortgage loans, funding reserves, paying bond debt service or redeeming outstanding bonds and notes, and funding program expenses. Authorized investments include obligations of the U.S. Treasury, U.S. Government Agencies, repurchase agreements, investment agreements, money market funds and certificates of deposit.

The following assets, reported at fair value and held by CDA at June 30, 2018, are evaluated in accordance with GASB accounting guidance for interest rate risk, credit risk, concentration of credit risk and custodial credit risk.

	Housing Revenue Bonds	Residential Revenue Bonds	General Bond Reserve Fund	Combined
Cash and Cash Equivalents:				
BlackRock Liquidity FedFund Administration Shares	$ 119,083	$ 182,320	$ 26,829	$ 328,232
Demand Deposit Account	-	19,114	-	19,114
Investments:				
Obligations of the U.S. Treasury	6,922	-	3,340	10,262
Obligations of the U.S. Government Agencies	-	79,279	9,980	89,259
Repurchase Agreements and Investment Agreements	-	2,408	-	2,408
Mortgage-Backed Securities:				
Government National Mortgage Association (GNMA)	46,085	161,543	-	207,628
Federal National Mortgage Association (FNMA)	-	88,547	-	88,547
Total Cash and Cash Equivalents, Investments and Mortgage-Backed Securities	$ 172,090	$ 533,211	$ 40,149	$ 745,450

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. As a means of limiting its exposure to fair value losses from rising interest rates, CDA's Investment Policy requires that the maturities of the investment portfolio are scheduled to meet the cash requirements for bond debt service, projected loan originations and ongoing operations.

(in thousands)

NOTE 3 CASH, CASH EQUIVALENTS, INVESTMENTS AND MORTGAGE-BACKED SECURITIES (CONTINUED)

Interest Rate Risk (Continued)

As of June 30, 2018, the amortized cost, fair value and maturities for these assets were as follows:

			Maturities (in Years)				
Asset	Amortized Cost	Fair Value	Less Than 1	1 - 5	6 - 10	11 - 15	More Than 15
BlackRock Liquidity FedFund Administration Shares	$ 328,232	$ 328,232	$ 328,232	$ -	$ -	$ -	$ -
Demand Deposit Account	19,114	19,114	19,114	-	-	-	-
Obligations of the U.S. Treasury	8,388	10,262	391	1,745	8,126	-	-
Obligations of U.S. Government Agencies	88,016	89,259	44,918	37,857	-	6,484	-
Repurchase Agreements/ Investment Agreements	2,408	2,408	-	-	-	2,408	-
GNMA Mortgage-Backed Securities	210,045	207,628	-	-	-	-	207,628
FNMA Mortgage-Backed Securities	89,267	88,547	-	-	-	-	88,547
Total	$ 745,470	$ 745,450	$ 392,655	$ 39,602	$ 8,126	$ 8,892	$ 296,175

The BlackRock Liquidity FedFund Administration Shares invests primarily in cash, U.S. Treasury bills, notes, and other obligations issued or guaranteed as to principal and interest by the U.S. Government, its agencies or instrumentalities, and repurchase agreements secured by such obligations or cash. It is operated in accordance with Rule 2a-7 of the Investment Company Act of 1940, as amended. It can reasonably be expected to have a fair value that will be unaffected by interest rate changes because the interest rates are variable and the principal can be recovered on demand. As noted above, as of June 30, 2018, the cost of the money market mutual fund approximated fair value.

Credit Risk and Concentration of Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Neither CDA's Investment Policy nor the trust indentures require investment agreements or deposits to be collateralized. CDA's Investment Policy places no limit on the amount that CDA may invest in any one issuer or counterparty. According to CDA's indentures and Investment Policy, securities must be at a rating no lower than the rating on the bonds or, if an investment maintains only a short-term rating, a rating not less than F1/P-1; and financial institutions who are a counterparty to CDA in investment agreements must be rated at least comparable to the existing rating on CDA bonds unless counterparty ratings lower than the bond ratings are permitted in a specific indenture and do not affect the ratings on the bonds. In addition, certain investment and repurchase agreements require counterparty ratings no less than the ratings on the bonds. As of June 30, 2018, all counterparty ratings were at least equal to the ratings on the bonds. The ratings on Housing Revenue Bonds and Residential Revenue Bonds as of June 30, 2018 were Aa2 by Moody's Investors Service. The ratings on Housing Revenue Bonds and Residential Revenue Bonds as of June 30, 2018 were AA+ and AA, respectively, by Fitch Ratings. The following table provides credit quality rating information for the investment portfolio and individual issuers, if they represent 5% or more of total investments, in accordance with accounting guidance issued by GASB.

(in thousands)

NOTE 3 CASH, CASH EQUIVALENTS, INVESTMENTS AND MORTGAGE-BACKED SECURITIES (CONTINUED)

Credit Risk and Concentration of Credit Risk (continued)

As of June 30, 2018, credit ratings and allocation by type of investments for the following assets were:

Asset	Fair Value	Percentage of Total Investments	Money Market Fund Rating	Securities Credit Rating	Rating Agency
BlackRock Liquidity FedFund Administration Shares	$ 328,232	44.03%	Aaa		Moody's
Demand Deposit Account: Counterparty Rated Aa2 by Moody's	19,114	2.56%			
Government National Mortgage Association (GNMA) Mortgage-Backed Securities	207,628	27.85%		Direct U.S. Obligations	
Federal National Mortgage Association (FNMA) Mortgage-Backed Securities	88,547	11.88%		Aaa	Moody's
Obligations of the U.S. Treasury	10,262	1.38%		Direct U.S. Obligations	
Obligations of U.S. Government Agencies	89,259	11.97%		Aaa	Moody's
Collateralized Repurchase Agreements and Investment Agreements:				Underlying Securities Credit Rating	
Counterparty Rated Aaa by Moody's	2,408	0.32%		Direct U.S. Obligations	
Total	$ 745,450	100.00%			

The market value of the underlying collateralized securities in repurchase agreements and investment agreements is maintained at a minimum of 102% of the principal of and accrued interest on the invested funds by marking to market at least weekly and using an immediate under value cure provision.

In order to facilitate a transaction with a liquidity provider, CDA has invested in a demand deposit account that is classified as cash and cash equivalents. This investment is backed by an Irrevocable Standby Letter of Credit dated July 26, 2012, that was established by the Federal Home Loan Bank of Pittsburgh, and is automatically extended each year until July 26, 2018. This date corresponds with the termination date of the standby purchase agreement.

NOTE 3 CASH, CASH EQUIVALENTS, INVESTMENTS AND MORTGAGE-BACKED SECURITIES (CONTINUED)

Mortgage-Backed Securities

All mortgage-backed securities held by CDA are guaranteed by the Government National Mortgage Association (GNMA) or the Federal National Mortgage Association (FNMA or Fannie Mae).

GNMA mortgage-backed securities are instrumentalities of the United States Government and are "fully modified pass-through" mortgage-backed securities which require monthly payments by a Federal Housing Administration (FHA) lender, as the issuer of the guaranteed security to CDA. GNMA guarantees timely payment of principal and interest on Guaranteed Securities.

Fannie Mae mortgage-backed securities are "guaranteed mortgage pass-through securities" which supplement amounts received by a trust created under a trust agreement as required permitting timely payments of principal and interest on the securities to CDA. The securities and payments of principal and interest on the securities are not guaranteed by the United States and do not constitute a debt or obligation of the United States or any of its agencies or instrumentalities other than Fannie Mae.

As an investor of GNMA I mortgage-backed securities (MBS), CDA receives separate principal and interest payments on the 15th of each month; however, for GNMA II MBS, CDA receives the total principal and interest from a central paying agent on the 20th of each month. For all Fannie Mae securities, CDA receives the total principal and interest from the trust on the 25th of each month. All mortgages backing a GNMA I MBS have the same mortgage rate equal to 50 basis points greater than the coupon, with 44 basis points of servicing fee and 6 basis points of guaranty fee. Similarly, GNMA II MBS also have 6 basis points of guaranty fee, but the mortgage rate for the loans backing the security can vary between 25 to 75 basis points greater than the coupon which may result in a variety of servicing fees. All Fannie Mae securities have a guaranty fee of 45 basis points and a servicing fee of 25 basis points. CDA also participates from time to time in the Fannie Mae buy-up or buy-down of the guaranty fee created in the pooling process in order to maximize pooling of securities for efficiency and effectiveness.

In January 2012, CDA expanded the sources of financing for its mortgage-backed securities program through the ongoing sale of forward contracts of GNMA and Fannie Mae mortgage-backed securities. These securities are comprised of single-family mortgage loans originated by CDA's network of approved lender partners. As part of this program, CDA periodically enters into forward contracts to sell GNMA and Fannie Mae mortgage-backed securities to investors before the securities are ready for delivery (referred to as to-be-announced or TBA Mortgage-Backed Security Contract). These forward contracts are settled monthly, using funds held in Residential Revenue Bonds' additional collateral account, prior to being sold into the secondary market. As of June 30, 2018, CDA entered into TBA Mortgage-Backed Security Contracts with a notional amount of $54,715 outstanding. The increase/decrease in the fair value of GNMA and Fannie Mae mortgage-backed securities that are part of the TBA program is classified as operating revenue on the Combined Statement of Revenue, Expenses and Changes in Net Position.

NOTE 3 CASH, CASH EQUIVALENTS, INVESTMENTS AND MORTGAGE-BACKED SECURITIES (CONTINUED)

Custodial Credit Risk

Custodial credit risk is the risk that in the event of a bank or counterparty failure, CDA will not be able to recover its deposits or the value of its collateral securities that are in the possession of an outside party. As of June 30, 2018, the Funds' investments were not subject to custodial credit risk under accounting guidance issued by GASB. CDA's investments and collateralized securities are held in trust by the trustee or the trustee's agent, kept separate from the assets of the bank and from other trust accounts and are held in CDA's name.

Fair Value Measurements

CDA categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted market prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The Funds have the following recurring fair value measurements as of June 30, 2018:

- U.S. Government Agencies and U.S. Treasury Bonds of $99,521 are valued using quoted market prices (Level 1).
- GNMA and FNMA mortgage-backed securities of $296,175 are valued using the matrix pricing technique (Level 2).
- Pay-fixed, receive-variable interest rate swap agreements of $171 are valued using the matrix pricing technique (Level 2).

NOTE 4 MORTGAGE LOANS

Substantially all single-family mortgage loans are secured by first liens on the related property. Approximately 97% of all single-family mortgage loans are credit enhanced through the Federal Housing Administration (FHA) mortgage insurance programs, the Veterans Administration and USDA/RD guarantee programs, Maryland Housing Fund (MHF), or by private mortgage insurance policies. As of June 30, 2018, interest rates on first lien single-family loans range from 0.0% to 10.25% with remaining loan terms ranging from less than 1 year to 40 years.

Approximately 99% of all multi-family construction and permanent mortgage loans outstanding are insured or credit enhanced by FHA, MHF, Federal National Mortgage Association (FNMA), GNMA, or bank letters of credit. As of June 30, 2018, interest rates on the loans range from 1.80% to 7.00% with remaining loan terms ranging from less than 1 year to 40 years.

(in thousands)

NOTE 4 MORTGAGE LOANS (CONTINUED)

For the year ended June 30, 2018, the mortgage loan and claims receivable balances, net of the allowances for loan losses on the uninsured portions of multi-family loans and on single-family loans with private mortgage insurance, including loans in foreclosure and other loans with pending insurance claims, were as follows:

	Housing Revenue Bonds	Residential Revenue Bonds	General Bond Reserve Fund	Combined
Mortgage Loans	$ 224,510	$ 904,251	$ 14,454	$ 1,143,215
Allowance for Loan Losses	(35)	(7,471)	-	(7,506)
Mortgage Loans, Net of Allowance	$ 224,475	$ 896,780	$ 14,454	$ 1,135,709
Claims Receivable on Foreclosed and Other Loans	$ -	$ 24,562	$ -	$ 24,562
Allowance for Loan Losses	-	(2,726)	-	(2,726)
Claims Receivable on Foreclosed and Other Loans, Net of Allowance	$ -	$ 21,836	$ -	$ 21,836

NOTE 5 ACCRUED INTEREST AND OTHER RECEIVABLES

Accrued interest and other receivables as of June 30, 2018 were as follows:

	Housing Revenue Bonds	Residential Revenue Bonds	General Bond Reserve Fund	Combined
Accrued Mortgage Loan Interest	$ 922	$ 8,550	$ 187	$ 9,659
Accrued Mortgage-Backed Securities Interest	203	687	-	890
Accrued Investment Interest	183	580	98	861
Negative Arbitrage due from Mortgagors	75	-	-	75
Funds Due from Mortgage Insurers for Loan Modifications	-	269	-	269
Reimbursement Due for State-Funded Loans	-	1,665	-	1,665
Reimbursement Due For Pre-Foreclosure Costs Incurred on Mortgage Loans	-	3,754	-	3,754
Miscellaneous Loan and Other Billings	-	-	66	66
Total	$ 1,383	$ 15,505	$ 351	$ 17,239

NOTE 6 SHORT-TERM DEBT

CDA issues short-term debt to preserve volume cap when prepayments and payments from mortgages exceed the demand for new mortgages. Proceeds of the short-term debt are used to refund and to pay at maturity prior series of bonds. At the time of the refunding, prepayments and repayments of mortgage loans financed by these prior bonds are transferred to accounts in the short-term series. CDA expects to make these funds available to purchase mortgage loans upon the maturity or earlier redemption of the short-term bonds with proceeds of additional long-term bonds. By issuing the short-term debt, CDA more closely matches the rates on the short-term debt with the rates on short-term investments. When there is sufficient mortgage demand, CDA issues long-term refunding bonds to redeem the short-term debt and the prepayments and repayments are used to fund new mortgages. For the year ended June 30, 2018, CDA did not issue any short-term debt.

NOTE 7 BONDS PAYABLE

The bonds and notes issued by CDA are special obligations of CDA and are payable from the revenue and special funds of the applicable indentures. These bonds and notes do not constitute debt of and are not guaranteed by the State of Maryland or any other program of the State of Maryland or any political subdivision.

The provisions of the various bond indentures require or allow for the special redemption of bonds at par through the use of unexpended bond proceeds and excess funds accumulated primarily through prepayment of mortgage loans. All outstanding bonds are subject to optional redemption, in whole or in part at any time, after certain dates, as specified in the respective series indentures, at a redemption price equal to the principal amount thereof to be redeemed. When bonds are redeemed, whether as a special or optional redemption, CDA writes off a proportionate share of any unamortized original issue premiums, net of any unamortized original issue discounts, as a gain on early retirement of debt in the accompanying Combined Statement of Revenue, Expenses and Changes in Net Position. If unamortized original issue discounts exceed unamortized original issue premiums, CDA records a loss.

The following lists those bonds which are at variable rates and the terms by which the variable rates change. All other bonds have fixed interest rates.

Housing Revenue Bonds

Series 2013 E

The rate is set weekly by a remarketing agent so that the market value of the bonds is as close as possible to 100% of the principal amount of the bonds. In no event will the bonds bear interest at a rate in excess of 12%.

NOTE 7 BONDS PAYABLE (CONTINUED)

Residential Revenue Bonds

2006 Series G and J; 2007 Series M; 2008 Series D; 2012 Series B; and 2014 Series F.

The rate is set weekly by a remarketing agent so that the market value of the bonds is as close as possible to 100% of the principal amount of the bonds. In no event will the bonds bear interest at a rate in excess of 12%.

The following bonds are taxable. All other bonds are tax-exempt.

Housing Revenue Bonds
Series 2013 E

Residential Revenue Bonds
2012 Series A and B
2014 Series E and F
2015 Series B
2016 Series A
2017 Series A

NOTE 8 DEBT SERVICE REQUIREMENTS

As of June 30, 2018, the required principal payments for bonds (including mandatory sinking fund payments and special and optional redemptions that occurred subsequent to June 30, 2018 and excluding the effect of unamortized discounts/premiums as shown in Note 7) and interest payments for each of the next five years and in five-year increments thereafter, are as follows:

	Housing Revenue Bonds		Residential Revenue Bonds	
Year Ending June 30,	Interest	Principal	Interest	Principal
2019	$ 10,871	$ 14,675	$ 36,946	$ 40,530
2020	11,182	33,645	35,970	41,890
2021	10,576	3,565	34,713	35,690
2022	10,471	3,680	33,711	34,950
2023	10,357	3,610	32,741	33,325
2024 - 2028	49,837	19,020	147,518	187,405
2029 - 2033	45,732	22,405	110,443	267,695
2034 - 2038	40,281	28,480	62,733	267,555
2039 - 2043	33,594	29,285	24,806	163,270
2044 - 2048	24,820	74,575	4,740	93,495
2049 - 2053	15,220	34,245	21	1,310
2054 - 2058	7,833	27,590	-	-
2059 - 2060	640	25,395	-	-
Total	$ 271,414	$ 320,170	$ 524,342	$ 1,167,115

The interest calculations on outstanding variable rate bonds in the amounts of $41,795 in Housing Revenue Bonds and $235,145 in Residential Revenue Bonds are based on the variable rates in effect on June 30, 2018 and are not indicative of the actual interest expense that will be incurred in future years. As rates vary, variable rate bond interest payments will vary. See Note 9 for information on interest rate exchange agreements (swaps) associated with the variable rate debt in Residential Revenue Bonds.

NOTE 9 INTEREST RATE EXCHANGE AGREEMENTS (SWAPS)

Objective of the Swaps

As a means to lower its borrowing costs, CDA issues variable rate bonds. In order to protect against the potential increases in interest rates, CDA has entered into pay-fixed, receive-variable interest rate swap agreements in connection with certain variable rate bond series. CDA anticipates that the net swap payments and interest payments on underlying bonds will be lower than what CDA would have paid if it had issued fixed rate debt at the time of the underlying bond issuances. All of CDA's swaps are intended to be cash flow hedges.

(in thousands)

NOTE 9 INTEREST RATE EXCHANGE AGREEMENTS (SWAPS) (CONTINUED)

Terms and Fair Value

The terms, including the fair value of the outstanding swap as of June 30, 2018, are provided in the table below. The counterparty credit ratings for the outstanding swap as of June 30, 2018 are listed under the Credit Risk section. For the outstanding swap agreement the variable rate is reset monthly, and it is the intent of CDA to match the maturity of the swap with the maturity of the underlying bonds. The fair value is based on the market value and is affirmed by an independent advisor who used valuation methods and assumptions in accordance with accounting guidance issued by GASB.

Swap Counterparty	Associated Bond Issue	Original Notional Amount	Outstanding Notional Amount	Effective Date	Fixed Rate Paid	Variable Rate Received (1)	Fair Value	Swap Final Termination Date
Merrill Lynch Derivative Products AG (MLDP)	2008 Series D	$50,000	$47,890	9/4/2008	3.6880%	64% of LIBOR plus .31%	($171)	9/1/2038 (2)(3)(4)(5)(6)(7)

Notes to 2018 Table

(1) "LIBOR" means the one-month London Interbank Offered Rate.

(2) The outstanding notional amount reflects the amount that has been amortized as of March 1, 2018. On September 1, 2010, 2008 Series D had a scheduled amortization of the notional amount which corresponded to a scheduled mandatory sinking fund redemption of outstanding bonds on such date.

(3) CDA has the option to terminate this interest rate swap transaction in whole or in part without any termination payment on September 1, 2018 and on each March 1 and September 1 thereafter (Optional Par Termination Dates). If the option is exercised in part, the applicable notional amounts shall be reduced pro rata.

(4) On January 1, 2009, Bank of America Corporation acquired Merrill Lynch & Co., Inc. Notwithstanding this acquisition, Merrill Lynch Derivative Products AG remains in existence and continues as a swap provider on this swap agreement.

(5) On September 1, 2016, January 13, 2017, April 28, 2017 and July 20, 2017, CDA redeemed $1,615, $1,740, $1,320 and $960, respectively, of 2008 Series D variable rate debt. This has created a mismatch between the notional amount of the swap and the 2008 Series D variable rate debt outstanding. For tax-exempt bond purposes, the swap notional amounts of $1,615, $1,740, $1,320 and $960 were deemed terminated with respect to the 2008 Series D debt and integrated in the same amounts with an unhedged portion of 2007 Series M.
In addition, as a result of the amortizing $2,000 of the notional 2008 Series D swap, the hedged portion of the 2008 Series D variable rate debt outstanding was reduced by $1,770, and the hedged portion of the 2007 Series M variable rate debt outstanding was reduced by $230.

(6) The hedged portion of the variable rate debt outstanding is $10 less than the outstanding notional amount due to bond redemption on March 1, 2018.

(7) Subsequent to June 30, 2018, CDA exercised its option and terminated this interest rate swap, in whole, effective September 1, 2018.

Basis Risk

The swaps would expose CDA to basis risk should the relationship between the London Interbank Offered Rate and the Securities Industry and Financial Markets Association Rate converge. If a change occurs that results in the rates moving towards convergence, the expected cost savings may not be realized. In order to mitigate this risk, prior to the execution of the swap agreements, CDA and its independent financial advisor reviewed historical trading differentials between the Securities Industry and Financial Markets Association Rate and the London Interbank Offered Rate.

NOTE 9 INTEREST RATE EXCHANGE AGREEMENTS (SWAPS) (CONTINUED)

Credit Risk

Credit risk is the risk that a swap counterparty will not fulfill its obligations. The fair value of the swap represented CDA's credit exposure to the counterparty as of June 30, 2018. CDA was not exposed to credit risk under the swap agreement with MLDP since the fair value of the counterparty's swap portfolio was negative. However, should the valuation of the swap change, and the fair value turns positive, CDA may become exposed to credit risk in the amount of the swap's fair value. To mitigate the potential for credit risk, the fair value of the swap will be fully collateralized by the counterparty if a counterparty's credit quality falls below the designated credit rating thresholds.

The credit rating details for the swap counterparty, including credit rating thresholds, and the total fair value amount as of June 30, 2018 is summarized below:

Swap Counterparty	Outstanding Notional Amount	Current Credit Rating	Collateral Posting Credit Rating Threshold	Fair Value
Merrill Lynch Derivative Products AG (MLDP)	$47,890	Aa3 from Moody's AA from Standard and Poor's	A1 or below from Moody's or A+ or below from Standard and Poor's of Fitch	($171)

Termination Risk

Termination risk is the risk that, due to some event or exercise of a right, the swaps may terminate prior to the scheduled expiration which could result in a payment due from CDA. Furthermore, if a swap is terminated, the underlying variable rate bonds may be exposed to the rising variable interest rates.

According to the termination provisions of the swap agreements, CDA or the counterparty may terminate the swap if the other party fails to perform under the terms of the contract. The counterparty can terminate the contract if the ratings on the related bonds fall below the credit rating thresholds. In addition, CDA has an option to terminate the swaps in part or in whole without any payment except for accrued interest on the respective Optional Termination Dates. Regardless of the above, CDA has a unilateral right to terminate swaps at any time upon adequate notification to the counterparty. If at the time of such termination a swap has a negative fair value, CDA would be liable to the counterparty for a payment equal to the swap's fair value along with any accrued interest.

Rollover Risk

CDA is exposed to rollover risk on the swap agreements if the agreement terminates prior to the maturity of the associated debt. CDA evaluates the range of reasonably expected repayment patterns for the financed assets to best match the swap schedule. Terminating an existing swap may enable CDA to enter a new swap or other financing mechanism that may be better tailored to the actual financed assets and repayment experience. It is the intent of CDA to match the maturity of the swaps with the maturity of the underlying bonds.

(in thousands)

NOTE 9 INTEREST RATE EXCHANGE AGREEMENTS (SWAPS) (CONTINUED)

Amortization Risk

Amortization risk is the risk that the actual redemption pattern of the bonds may differ from the swap schedule, producing a mismatch between the principal amount of the bonds outstanding and the outstanding notional amount of the swap. To address this risk, CDA has structured all swap transactions to provide for optional termination on the respective Optional Termination Dates and automatic incremental amortization of the swap notional amounts. Mortgage loan prepayments can also be directed to the variable rate series to match the outstanding notional swap amount to the outstanding amount of the underlying bonds.

Tax Risk

Tax risk is the risk that the value of tax exemption may decline through tax law changes and that variable interest rates would then rise toward taxable levels and the expected cost savings of the swaps may not be realized.

Counterparty Risk

Counterparty risk is the risk that a counterparty will fail to make required payments. In order to limit this type of risk, CDA diversifies its exposure across several counterparties.

Swap Payments and Associated Debt

The following table provides a summary of debt service requirements for hedged variable rate bonds and net swap payments for the next five years and in five-year increments thereafter. The interest calculations are based on the variable rates in effect on June 30, 2018, and may not be indicative of the actual interest expense that will be incurred. As rates vary, variable rate bond interest payments and net swap payments will vary.

	Hedged Variable Rate Bonds		Interest Rate	
Year Ending June 30,	Principal*	Interest	Swaps, Net	Total
2019	$ 2,930	$ 682	$ 967	$ 4,579
2020	1,230	671	890	2,791
2021	1,400	650	863	2,913
2022	1,590	628	829	3,047
2023	1,785	606	795	3,186
2024 - 2028	8,930	2,613	3,340	14,883
2029 - 2033	10,350	1,915	2,287	14,552
2034 - 2038	12,825	1,059	989	14,873
2039 - 2043	1,435	52	16	1,503
Total	$ 42,475	$ 8,876	$ 10,976	$ 62,327

* The outstanding principal amount of the hedged variable rate bonds differs from the outstanding notional amount. Please refer to the “Notes to 2018 Table” on page 25 for explanations of these differences.

(in thousands)

NOTE 9 INTEREST RATE EXCHANGE AGREEMENTS (SWAPS) (CONTINUED)

Fair Values

The table below summarizes the total fair values for CDA's interest rate exchange agreements at June 30, 2017 and June 30, 2018, and the changes in fair values for the year ended June 30, 2018.

	Total Fair Value at June 30, 2017	Total Fair Value at June 30, 2018	Change in Fair Value for the Period
Interest Rate Exchange Agreements:			
Cash Flow Hedges	$ (1,917)	($171)	$ 1,746

In accordance with accounting guidance issued by GASB, the fair value balance of the derivative instrument (interest rate exchange agreement) outstanding at June 30, 2018 and the changes in fair value of such derivative instrument as presented on the Combined Financial Statements for the period ended June 30, 2018, are as follows:

	Change in Fair Value		Fair Value at June 30, 2018		Outstanding Notional
	Classification	Amount	Classification	Amount	Amounts
Cash Flow Hedges:					
Pay Fixed Interest Rate Swap	Deferred Outflow	$ 1,746	Debt	$ (171)	$ 47,890

As of June 30, 2018, CDA's swap meets the criteria for effectiveness and the swap fair value is classified as a deferred outflow.

The fair values of the interest rate swaps were estimated using the zero-coupon method. This method calculates the future net settlement payments required by the swap, assuming that the current forward rates implied by the yield curve correctly anticipate future spot interest rates. These payments are then discounted using the spot rates implied by the current yield curve for hypothetical zero-coupon bonds due on each future net settlement on the swaps.

NOTE 10 BOND REFUNDINGS

Certain refundings of debt are due to the prepayments of single-family mortgage loans. In these cases, CDA transfers the proceeds of the refunding bonds to a redemption account to redeem previously issued bonds and, simultaneously, transfers the prepayments of single-family mortgage loans financed by these prior bonds to the refunding bonds' accounts for the purpose of originating new loans. This recycling of prepayments enables CDA to originate new loans that are not subject to the limitations of the IRS volume cap. CDA does not pay call premiums on these special redemptions, and the refundings are not undertaken to reduce interest rates, revise payment schedules, or modify restrictions related to the old debt. CDA writes off any unamortized original issue premiums, net of any unamortized original issue discounts, as a gain on early retirement of debt in the accompanying combined statement of revenue, expenses, and changes in net position. If unamortized original issue discounts exceed unamortized original issue premiums, CDA records a loss.

For current refundings of debt in an optional redemption, CDA replaces previously issued bonds for the purpose of lowering debt costs by reducing interest rates or for other purposes such as revising payment schedules or modifying restrictions related to the old debt. This type of transaction is commonly known as an economic refunding.

During the fiscal year ended June 30, 2018, CDA issued and redeemed the following bonds as part of an economic refunding:

> On May 31, 2018, CDA issued $42,430 of Series 2018 A bonds which refunded all of Series 1996 A and Series 1996 B bonds on June 18, 2018. This refunding reduced the total debt service payments for the remaining life of the bonds and resulted in an economic gain of $315.

In economic refundings, CDA defers the difference between the reacquisition price (i.e., the principal of the old debt, plus the call premium) and the net carrying amount of the old debt (i.e., the amount due at maturity, adjusted for any unamortized premium or discount related to the old debt). These deferrals would be reported as a deferred outflow or a deferred inflow of resources for the refunding of debt on the Statement of Net Position. This deferral would be amortized, using the effective interest method, over the remaining life of the old debt or the life of the new debt, whichever is shorter. As a result of the refundings described above, CDA did not have to defer any refunding debt costs associated with the refunded bonds.

NOTE 11 REBATE LIABILITY

In accordance with the Internal Revenue Service Code (the Code), CDA may record a rebate liability for excess investment earnings in tax-exempt bond issues. The excess investment earnings arise due to actual investment yields earned by CDA being greater than yields permitted to be retained by CDA under the Code. The Code requires 90% of such excess investment earnings to be remitted to the United States Treasury every five years and in full at the final redemption of the bonds. Interest income on the Combined Statement of Revenue, Expenses and Changes in Net Position is reduced by the rebate liability due to excess investment earnings. The increase/decrease in fair value of investments on the Combined Statement of Revenue, Expenses and Changes in Net Position is adjusted by the change in the estimated rebate liability due to change in fair value of investments. CDA has no rebate liability from interest income or from unrealized gains on mortgage-backed securities. As of June 30, 2018, there was no rebate liability to record for excess investment earnings in tax-exempt bond issues.

Total Long-Term Liabilities	$ 321,544	$ 1,133,740	$ 239	$ 1,455,523

(in thousands)

NOTE 13 INTERFUND ACTIVITY

In accordance with the various bond indentures, net position in each of the Funds are restricted and pledged to bondholders. However, restricted assets may be transferred to other Funds, subject to the provisions of the respective indentures. Generally, an officer of CDA must authorize such withdrawals and a cash flow analysis must demonstrate that sufficient monies remain in the indenture to meet the obligations of the Funds in current and future years. A cash flow analysis is not required for the General Bond Reserve Fund (GBRF) because there are no bonds outstanding in GBRF as of June 30, 2018.

During the year ended June 30, 2018, CDA transferred the following amounts, as permitted, among Funds:

	Transfers Among Funds			
	Housing Revenue Bonds	Residential Revenue Bonds	General Bond Reserve Fund	Combined
Funds for the Business Lending Program	$ -	$ (10,000)	$ 10,000	$ -
Excess Revenue Transferred to the General Bond Reserve Fund	(2,000)	(15,000)	17,000	$ -
Administrative Fees on Mortgage Loans Transferred from Multi-Family Mortgage Revenue Bonds	-	-	327	327
Transfers of Funds, Net, as Permitted by the Various Bond Indentures	$ (2,000)	$ (25,000)	$ 27,327	$ 327

NOTE 14 OTHER OUTSTANDING BONDS ISSUED BY CDA (CONDUIT BONDS)

CDA has issued the following bonds that are not included in the Combined Financial Statements of the Funds. The Multi-Family Development Revenue Bonds are secured solely by the properties and related revenues of the projects and the applicable credit enhancements. The Capital Fund Securitization Bonds are insured and are repayable by the Department of Housing and Urban Development (HUD) directly to the trustee from funds that the participating public housing authorities would have received under its Annual Contributions Contract. The Local Government Infrastructure Bonds (Mayor and City Council of Cumberland Issue) are secured solely from the revenues and property pledged under this resolution. Neither the faith and credit of CDA nor the assets of the Funds have been pledged as security for these bonds. Accordingly, these obligations are excluded from CDA's Combined Financial Statements.

Capital Fund Securitization Revenue Bonds Series 2003	$ 94,295	$ 2,715
Local Government Infrastructure Bonds 2011 Series A (Mayor and City Council of Cumberland Issue)	$ 12,275	$ 10,435

NOTE 14 OTHER OUTSTANDING BONDS ISSUED BY CDA (CONDUIT BONDS) (CONTINUED)

The Multi-Family Development Revenue Bonds, the Capital Fund Securitization Revenue Bonds and the Local Government Infrastructure Bonds (Mayor and City Council of Cumberland Issue) are special obligations payable solely from the trust estate pledged under each indenture. These bonds do not constitute a debt of and are not guaranteed by the State of Maryland, any political subdivision thereof, CDA, or the Department of Housing and Community Development.

NOTE 15 MORTGAGE INSURANCE

Substantially all of the Funds' mortgage loans have mortgage insurance as described in Note 4.

Multi-family mortgagors pay premiums for mortgage insurance and insurance coverage is 100% of the unpaid principal balance of the loan.

For the single-family loan portfolio, approximately 42% of the mortgage loans are insured by agencies of the U.S. Government in an amount substantially equal to the unpaid principal amount of the loan. Almost all other loans have primary mortgage insurance in an amount that is at least 25% of the loan amount. Approximately 3% of all first lien loans either did not have primary mortgage insurance due to their original loan-to-value ratios of less than 80% or have cancelled primary mortgage insurance due to their outstanding balance falling below 80% of the original loan amount.

About 55% of mortgage loans are insured by private mortgage insurers or MHF. Approximately 96% of the mortgage loans insured by private mortgage insurers or MHF are covered at 35% of the loan amount, while 4% of the loans are covered at 25%. There are two private mortgage insurers who, due to financial constraints or receivership, are currently paying to CDA approximately three quarters of the amount determined to be due. These two private mortgage insurers represent 4% of the mortgage loans insured by private mortgage insurers or MHF. An allowance for loan losses has been established for loans insured by private mortgage insurers. Premiums are paid by single family mortgagors.

NOTE 16 PENSION AND OTHER POST-RETIREMENT BENEFITS

Eligible employees of CDA and employees of the State of Maryland are covered under the retirement plans of the State Retirement and Pension System of Maryland (the System) and are also entitled to certain healthcare benefits upon retirement. CDA's only obligation for retirement and post-employment benefits is its required annual contribution, which was paid in full by CDA to the State of Maryland prior to year-end. The liability for the employees is recorded by the general fund of the State of Maryland and is not allocated to CDA. The System prepares a separate audited Comprehensive Annual Financial Report which can be obtained from the State Retirement and Pension System of Maryland, 120 East Baltimore Street, Baltimore, Maryland 21202 or by visiting the website at www.sra.state.md.us.

NOTE 17 SUBSEQUENT EVENTS

CDA has identified the following activity that occurred subsequent to June 30, 2018.

Subsequent to the year ended June 30, 2018, CDA exercised its option and terminated the interest rate swap, in whole, effective September 1, 2018. See Note 9 for additional information.

CDA also redeemed $2,360 of Series 2016 A Housing Revenue Bonds on July 30, 2018.

COMMUNITY DEVELOPMENT ADMINISTRATION
REVENUE OBLIGATION FUNDS
SUPPLEMENTAL DISCLOSURE OF COMBINED CHANGES IN
FAIR VALUE OF INVESTMENTS AND MORTGAGE-BACKED SECURITIES
(in thousands)
JUNE 30, 2018

In accordance with accounting guidance issued by GASB, CDA reflects investments and mortgage-backed securities at fair value, and the increase or decrease in fair value is included in the Combined Statement of Revenue, Expenses and Changes in Net Position.

For investments (obligations of the U.S. Treasury and U.S. Government Agencies) held by the Funds as of June 30, 2018, the following schedule summarizes annual increases/decreases in fair value and the cumulative difference between fair value and amortized cost:

Fiscal Year Period	Housing Revenue Bonds	Residential Revenue Bonds	General Bond Reserve Fund	Combined
Cumulative FY 1996 and Prior Periods	$ -	$ -	$ 620	$ 620
FY 1997	(352)	-	175	(177)
FY 1998	832	-	90	922
FY 1999	(407)	-	(191)	(598)
FY 2000	48	(227)	(237)	(416)
FY 2001	193	551	244	988
FY 2002	157	97	405	659
FY 2003	889	544	519	1,952
FY 2004	(678)	(674)	(1,368)	(2,720)
FY 2005	897	403	(403)	897
FY 2006	(866)	(1,567)	(526)	(2,959)
FY 2007	48	1,062	437	1,547
FY 2008	444	785	445	1,674
FY 2009	202	46	(150)	98
FY 2010	472	2,747	(53)	3,166
FY 2011	(280)	(2,244)	1,898	(626)
FY 2012	1,283	1,374	449	3,106
FY 2013	(730)	(855)	(539)	(2,124)
FY 2014	(27)	243	(287)	(71)
FY 2015	36	43	(271)	(192)
FY 2016	409	445	(180)	674
FY 2017	(666)	(646)	(403)	(1,715)
FY 2018	(454)	(866)	(268)	(1,588)
Cumulative Total	$ 1,450	$ 1,261	$ 406	$ 3,117
